

## BlueStar® Autonomous Driving Index

The BlueStar® Autonomous Driving Index (BAUT) tracks the performance of the largest and most liquid companies in the global autonomous driving industry. This is a modified market cap-weighted index, and only includes companies that generate at least 50% of their revenue from products or services related to the development of autonomous driving technology, such as advanced driver assistance or autonomous driving systems, vehicle-to-vehicle and vehicle-to-everything communications, and automobile-embedded machine learning systems.

### Key Features

#### Size and Liquidity Requirements

Full MCap of at least 250 mln USD. Three month average-daily-trading volume of at least 1 mln USD at a review and also at the previous two reviews. At least 250,000 shares traded per month over the last six months at a review and also at the previous two reviews.

#### Universe

Companies have to offer products or services that facilitate ADAS or autonomous driving, fleet management, or automobile infotainment.

#### Diversification

Companies are equally weighted within tiers.

#### Review

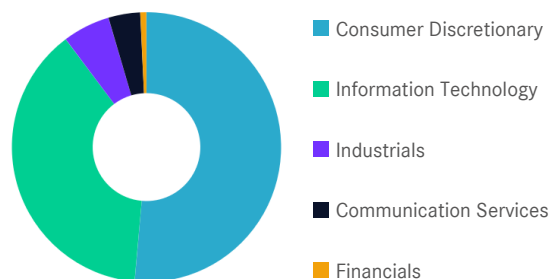

Semi-annual in June and December.
