

COIN50 Daily Summary

Daily Overview: COIN50 Index showed mixed trends in returns. The COIN50 daily return stood at -4.99%, impacted significantly by unfavorable performance in key categories such as Infrastructure Applications, which marked a return of -9.12%. The index's 30-day return of -4.64% reflects continued subdued performance, while the 90-day return of 17.36% highlights a notable recovery trend. The top performer today was AERO with a return of 16.28%. LPT recorded the largest decline with a return of -15.76%. BTC and BCH reported less pronounced losses among Store of Value tokens.

Key highlights:

1. **Top Performer:** AERO saw strong gains at 16.28%, standing out as the only token to post a positive return today.

2. **Largest Decline:** LPT experienced a sharp decline with a return of -15.76%, marking the lowest among ranked tokens.

3. **Noteworthy Movements:** BTC and BCH under Store of Value category showed moderate declines amidst broader negative market movements.

It is not possible to invest directly in an index. Exposure to an asset class represented by an index is available through investable instruments based on that index. MarketVector does not sponsor, endorse, sell, promote or manage any investment fund or other investment vehicle that is offered by third parties and that seeks to provide an investment return based on the performance of any index. MarketVector makes no assurance that investment products based on the index will accurately track index performance or provide positive investment returns. MarketVector is not an investment advisor, and it makes no representation regarding the advisability of investing in any such investment fund or other investment vehicle. A decision to invest in any such investment fund or other investment vehicle should not be made in reliance on any of the statements set forth in this document.

Investments into crypto currencies and/or digital assets are subject to material and high risk including the risk of total loss. The calculated prices may not be achieved by investors as the calculated price is based on prices from different trading platforms. Furthermore, an investment into crypto currencies and/or digital assets may become illiquid depending on the trading platform or investment product used for the specific investment. Investors should carefully review all risk factors disclosed by the relevant trading platform or in the product documents of relevant investment products.

Prospective investors are advised to make an investment in any such fund or other vehicle only after carefully considering the risks associated with investing in such funds, as detailed in an offering memorandum or similar document that is prepared by or on behalf of the issuer of the investment fund or other vehicle. Inclusion of a security within an index is not a recommendation by MarketVector to buy, sell, or hold such security, nor is it considered to be investment advice.
